REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Examiner was relying upon the primary reference to Cheprasov et al. While Cheprasov et al teaches the use of load sensors associated with each of the magnetic head sliders for individual control of the lapping process, the load sensors are merely responsive to load, and are not endpoint monitoring devices. In addition, none of the prior art, including Cheprasov et al have sensors on each of the magnetic head sliders which are directly responsive to an external applied magnetic field which changes as a function of height of the magnetoresistive element, to individually control each of the sliders, as claimed in independent claims 20, and 27. Previously presented independent claims 32, and 33 were indicated as allowable in a prior Office action.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert Rose whose telephone number is (571) 272-4494. The examiner can normally be reached on Monday through Thursday, and on alternate Fridays, between 8:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Hail can be reached on (571) 272-4485. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
